Hybrid profile combining product vision and technical expertise, capable of designing and delivering performing digital solutions.

Work experience

Fullstack developer

June 2025

Freelance

Current

- Delivered a sports platform serving **50k+ monthly users**, optimizing score fetching and delivery through Redis caching and Cloudflare CDN integration.
- Built an internal SaaS tool for a property management agency, including AWS-hosted 3D property visits and incident reporting workflows used by **700+** property managers.
- Launched an international linguistic trips marketplace featuring Elasticsearch and an AI-driven query engine to enable natural language database searches and automated student support.
- Led complete freelance deliveries, translating business needs into scalable products used in production by paying clients.

Fullstack developer

February 2024

Big Boss Studio, Nice

Current

- Designed scalable REST/GraphQL APIs (Laravel/Node.js) using Redis caching to ensure high performance under high load.
- Delivered custom back-office tools (Nova, Filament, Strapi) to optimize internal workflows.
- Developed an internal resource planning management SaaS for a major laboratory brand, automating complex shift rotations and scheduling for **200+ employees** over 10 different sites.
- Deployed a luxury streaming architecture leveraging CDN and auto-scaling to handle 30k+ simultaneous visitors.
- Automated contract workflows for **50+ entities** through a SaaS solution.
- Integrated Stripe, OpenAI, and Identity Verification to enhance platform security and UX.
- Collaborated with front-end teams by delivering documentation on available APIs

Technical Project Manager

June 2021

Big Boss Studio, Nice

June 2023

- **Supervision and management of strategic digital projects** (Web / Apps) for prestigious clients (**luxury, startups, public entities**).
- Development of key platforms for a luxury brand → **5k+ leads generated per campaign**.
- Public mobile application (French market): continuous delivery → store rating improved from **4.0** → **4.6/5** and **+32% downloads in one year**.
- Coordination of multidisciplinary teams & performance dashboards to optimize **client decision-making** and **digital competitiveness**.
